

BUILDING AMENITIES

LACTATION ROOMS

The JHU Bloomberg Center has three lactation rooms available. Rooms 277, 377, and 570 are designated as lactation rooms and should be used for lactation purposes only. All three rooms are located in areas that are accessible to students and guests. Each room is equipped with a small refrigerator, table, chair, sink, and hospital-grade pump. Users are responsible for providing their own accessory kit/disposable parts.

No special process is required to use the lactation rooms and they are available on a first come first served basis. Before using the room, please remember to lock it from the inside. We ask that all users clean up after themselves and dispose of any trash/recycling in the proper receptacle before leaving the room. Any lactation room questions or issues should be directed to 555_Facilities@jhu.edu.

TRANQUILITY ROOMS

As one of the building amenities, the JHU Bloomberg Center provides three tranquility rooms. The room locations are 276, 376, and 571. Tranquility rooms are designed for students, faculty, staff, and guests to have a private space for tranquility and rejuvenation, which can help reduce stress. Students, faculty, staff, and visitors are welcome to spend a few minutes inside meditating, listening to music with headphones, doing a breathing exercise, or simply having a quiet moment to themselves.
